

### **AMENDMENTS TO THE SPECIFICATION**

**At Paragraph [02]:** Please replace paragraph [02] starting on page 1 with the following new paragraph:

[02] In addition, this application makes reference to United States Patent Application Serial No. 60/457,179 (Attorney Docket No. 14825US01), entitled "Server Architecture Supporting A Personal Media Exchange Network" and filed March 25, 2003; United States Patent Application Serial No. 10/657,390 (Attorney Docket No. 14185US02), entitled "Personal Inter-Home Media Exchange Network" and filed on September 8, 2003; and United States Patent Application Serial No. 10/660,267 (Attorney Docket No. 14274US02), entitled "Personal Access and Control of Media Peripherals on a Media Exchange Network" and filed on September 11, 2003. The complete subject matter of the above-identified applications are hereby incorporated herein by reference in their entirety.

**At the Abstract of the Disclosure:** Please amend the Abstract of the Disclosure at page 30 as follows:

Systems and methods that reformat media are described. In one embodiment, a system may include, for example, a server, a first communications device and a second communications device. The server, the first communications device and the second communications device may be operatively coupled to a network. The second communications device may receive, from the first communications device, a device profile relating to the first communications device and may send the device profile and media content to the server. The server may reformat the media content based on the device profile.
